Subject: New Press Inquiry - City of New Bedford/ EPA pending use of joint CAD cell technology for disposal

A Press Inquiry was recently documented by you or someone from your staff.

Topic of Press Inquiry: City of New Bedford/ EPA pending use of joint CAD cell technology for disposal

Summary of Press Inquiry: Joe wanted to do a story on Cad cells (confined aquatic disposal) which the New Bedford Harbor Development Commission is already using and which EPA is evaluating to address remaining contamination at the bottom of the harbor. This story is running before the town meeting on this subject on October 30th at the New Bedford Public Library. He was very interested in the coordination between EPA, MassDEP, and the City of New Bedford, as well as the potential time and cost savings by using this alternative.

Media Outlet: The Standard Times
